About the course	Researching Equity
Course content	<p>The course will provide an analysis of the challenges associated with equity, diversity and inclusion in the regional contexts of the ENLIGHT partners from various disciplinary angles, including psychology, educational sciences, economics, political science and medicine. Students will learn how to design observational and experimental research dealing with an equity-related subtopic of their own choice.</p> <p>Students will be guided by a variety of examples of equity-related topics as well as by lectures about quantitative and qualitative research methods that are needed to design research on equity-related issues. These will (among other topics) include lectures on economic inequality and/or health disparities, social-psychological perspectives on equity, diversity, inclusion, and on how to conduct cross-cultural research. The aim of the course is to involve students in the whole research design process which will help them to develop further their disciplinary and transversal skills.</p>
Learning Outcomes	<p>After this module, students will be able to:</p> <ul style="list-style-type: none"> - understand the various dimensions of equity and its determinants in various contexts - identify and describe multiple challenges people face in different environments - describe and compare selected quantitative and qualitative research methods - choose the appropriate research method, develop a research design and measurement instrument - develop a research topic and question of appropriate scope - design research on their chosen dimension of equity - understand the role and significance of marginalization processes in their own local as well as other European contexts - sensitively approach the issue of adapting a research project to diverse cultural contexts - apply and further develop as well as reflect on their intercultural communication and negotiation competences by working together in multinational and interdisciplinary teams - improve their project management and problem-solving skills as a result of independent organization and work within their groups and group meetings
Programme	Further information about the program will follow soon
Assessment	<ul style="list-style-type: none"> - Final presentation (20 min) - Survey portfolio (10 pages plus appendix documents such as questionnaires)
Lecturers	<ul style="list-style-type: none"> - Sebastian Vollmer (University of Göttingen) - Miriam Ureta (University of Basque Country)

	<ul style="list-style-type: none"> - Andrej Findor (Comenius University) - Sabine Otten (University of Groningen) - Piet van Avermaet (Ghent University, tbc)
Focus area	Equity
Study field	Interdisciplinary – disciplines where qualitative and quantitative research on different dimensions of equity is conducted
Type	intensive programme
Format	blended
Host	University of Göttingen
Course dates	<p>winter term 2023</p> <ul style="list-style-type: none"> - On-site week at Göttingen: 24th of Sep. – 30th of Sep 2023 (incl. travel days) - Followed by a Virtual phase
ECTS	6
How to apply?	<p>This course is eligible for master students from the ENLIGHT partner universities:</p> <ul style="list-style-type: none"> • Comenius University Bratislava • University of Galway • Ghent University • University of Göttingen • University of Groningen • University of Tartu • University of Uppsala <p>Students from ENLIGHT partner universities: Please apply by 15 April 2023. Applications are now open.</p> <p>Students should first contact their faculty or programme to verify whether it can fit in their curriculum and to ensure academic recognition of the credits obtained. For blended mobility (combination of physical mobility with a virtual component), students should contact their home international office to obtain information about application and funding.</p> <p>More information? Contact your ENLIGHT local coordinators.</p> <p>Students will be selected at each of these universities separately. 3 students per university will be accepted.</p> <ul style="list-style-type: none"> • Level: Masters students <p>Students from Göttingen :</p> <p>For more information on how to participate, please contact: sebastian.vollmer@wiwi.uni-goettingen.de</p>

Contact	For general inquiries regarding the course, please contact Sebastian.vollmer@wiwi.uni-goettingen.de
